Education

2022 - 2026
University of SLIIT
BSc (Hons) in Information Technology
Specialising in -Information Technology

SIBA Campus
Diploma in Information Technology

Ginigathhena Central College (National)
GCE A/L - 3S
GCE O/L - 1A C5 S3

Skills

- Leadership Skills
- Analytical Skills
- Teamwork
- Adaptability
- Creativity
- Problem solving
- Communication Skills

About Me

As a future intern in software engineering, I have a great enthusiasm for creating original solutions. Currently working toward an information technology degree with a software engineering concentration, I am committed to lifelong learning and keeping up with industry developments, and I have refined my skills in the MERN Stack. I have outstanding problem-solving skills and do best in cooperative team settings. I'm looking for an internship so I can put my academic knowledge to use in a real-world situation and help a vibrant software development team succeed.

Personal Projects

Fruit Pulp Factory Management System
Order Management

Project Description:

Collaborated with a team to develop a Fruit Pulp Factory ManagementWeb Application using the MERN stack (MongoDB, Express.js, React, and Node.js). Played a key role in Order management, including features such as Manage Company Orders, Create Order Reports such as Income and lost Report, searching Reports.
Developed the application using Visual Studio Code as the primary development tool.

Technologies:

- Front-end: React
- Back-end: Node.js, Express.js
- Database: MongoDB
- Development Tool: Visual Studio Code

Life Insurance Management System

Project Description:

Collaborated with a team to develop an Insurance Managemnet System using JavaScript, PHP, HTML, CSS and MySql.Primarily responsible for the Claims Management, including implementing features such as Claims Tracking, Fraud Detection, Payments and Recovery. Primarily responsible for the Admins side, including implementing features such as make physical sales feature, Update Order and delete Order features are also implemented Implemented user-friendly functionalities and optimized performance for faster results.

Technologies:

- Java Script
- PHP
- HTML
- CSS
- MySQL

Tech Stack

Tools

- JavaScript
- React JS
- Node JS
- HTML/CSS
- Bootstrap
- PHP
- MySQL
- Firebase
- MongoDB
- C
- C++
- Java
- Python
- Tailwind
- PyCharm
- Visual Studio
- SQLite
- Eclips
- Postman

- Figma
- Mockflow
- ClickUp
- Miro
- Kotlin
- React Native
- VSCode
- WorkBench
- Android Studio

Languages

- English
- Sinhala

Online Medicine and Drug Ordering System

Project Description:

Designed and developed Login System for a web application, utilizing JavaScript, Java, MySQL Workbench, Java Servlets, HTML, and CSS. Enhanced user engagement through dynamic and interactive login and Sign up forms.

Technologies:

- JavaScript
- Java
- Java Servlets
- MySQL Workbench
- HTML
- CSS

Mobile Applications

Project Description:

created and developed applications for mobile devices, including games, get-notes, and ticket sales. Performance was enhanced for speedier results and user-friendly features were added.

Technologies:

- Android Studio
- Kotlin
- Firebase

Extra-Curricular Activities
